Re: Res. #119. Mt. Vernon Park Storm Relief Sewer

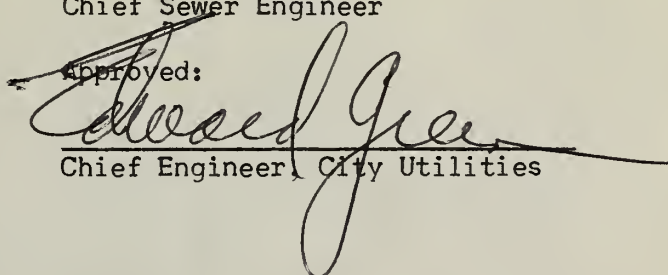

In constructing the Mt. Vernon Park Storm Relief Sewer we discovered that all of the necessary easements have not been obtained. It appears that Mr. John Woznick, a former City employee, who had been assigned to obtain the easements for this project, failed to obtain seven of the necessary easements.

This came to my attention when one property owner complained that she had not been contacted regarding an easement. Upon investigation six other easements that supposedly had been obtained could not be found as being recorded. Therefore, we are enclosing a Declaratory Resolution prepared by the City Engineer's Office for the Condemnation of the necessary Easements. This appears to be the simplest way to handle the problem at this time.

Mr. Bodeker is anxious to have a Board Order assigned to this Declaratory for reference purposes. The Contractor has agreed to skip the section of sewer involved until Condemnation Proceedings are completed.
